A new Start

Dear Customers,

In the last months we have worked hard to find a solution that ensures availability of Limbach engines and parts for the next years.

Effective 01 January 2012 Mr. Shuide Chen will purchase all equity of Limbach Flugmotoren GmbH&Co. KG. At the same time he will also become Managing Director .I will continue to assist the company in technical issues.

The company closing is cancelled. In the next months we will reorganize the company. I am convinced that future growth for general aviation will mainly take place in ner unsaturated markets. I believe that we will find them in Asia and that the people in Asia are confident about the future of their markets.

It is your direct advantage as a customer that we open new markets. It provides us with the resources to support our range of engines and to advance our products. In addition there will be new, exciting developments.

Our staff is an integral part of the company's redesign. We expect that all your points of contact will be available as usual. Continuing the company also is a major challenge. Please be prepared for delivery problems.

As a reaction to our announced closing, we have received a lot of orders. We have accepted them under the condition that we will be able to deliver. We are very grateful for your trust and kindly ask you to keep your orders open.

We are looking forward to a new exiting future and we would like you to be a part of it.

For more news please refer to: www.limflug.de

best regards

Peter Limbach
Managing Director
Limbach Flugmotoren GmbH & Co. KG
